

ÖPPNA HÖGSKOLAN

Swedish for real

Efficient course in the Swedish language-colorful, action-packed and fantastically fun!

Åland 27.7-10.8 2008

We invite you to experience and learn the Swedish language together with us!

Through variation, humour and positive stimulation in a safe and joyous teaching environment where all mistakes are an asset and the laughs hearty learning is faster, more intense, deeper and therefore longer lasting. Our course leaders Lina, Gerd and Sofia are all diplomaed suggestopedy teachers and teach using the creative methods of suggestopedy.

Education is given on three different levels, you can study on the level suitable to you:

Level 1: For those who do not know any Swedish at all. Having taken the course you will be able to communicate in simple Swedish in most every-day situations.

Level 2: For those who understand some Swedish but feel insecure producing speech or text. You will expand your vocabulary, get a better flow in your speech production and more assurance and self-confidence in using the Swedish language.

Level 3: For those who understand and speak Swedish but wish to deepen the nuances in your language, activate and expand your vocabulary and in general get a better self-confidence in using your knowledge in practice. You learn to produce a relatively complex speech and nearly flawless text as well as eliminate slips of the tongue.

The studies are combined with excursions, study visits, film, music etc. In a mono-lingual Swedish environment you will get the chance to experience a lot of what Åland, Swedish-speaking Finland and the Swedish culture in general have to offer!

Cost (Fee): € 1300 incl. full board and lodging at Ålands folkhögskola
€ 900 incl. lunch and dinner only
